It’s never too early to start planning for post-graduation! Whether you are hoping to attend graduate school or job search after you graduate, there are lots of resources at CSU that can help you be a competitive candidate in the future. Here are some suggestions to achieve career success:

1. Attend Career Center events (www.career.colostate.edu). There are several career events tailored for Geology students this fall including the Engineering Career Fair, Natural Gas Symposium, and Federal Connect. Plan to attend!

2. Use online career tools! Ram Career Ready (https://ramcr.tuapath.com/) is an amazing tool that will help you prepare your resume, navigate job searching, and explore career options.

3. Get involved in the department! Apply for a department position at: http://goo.gl/forms/hve0cmDYsJ.

5. Connect with your peers through the activities of the CSU Geosciences Club. Follow them on Facebook for more information.

7. Maintain a strong GPA. Take advantage of the many academic support resources at CSU through TILT to help you achieve success in your classes.

**Important Upcoming Dates:**

- **September 22-23** – All Campus Career Fair
- **September 23** – National Service Panel (Career Center)
- **September 29** – Gear Up for Grad School (Career Center)
- **October 1** – Engineering Career Fair (http://www.engr.colostate.edu/career_fair.php)
- **October 7** – Graduate School Fair (Career Center)
- **October 14** – U-Turn (TILT - http://tilt.colostate.edu/learning/studySkills/uturn.cfm)
- **October 19** – Course Withdrawal and Repeat/Delete Deadline
- **October 20** – Fed Connect Event (Career Center)
- **October 27-28** – Natural Gas Symposium (http://naturalgas.colostate.edu)
- **November 6** – Colorado Industry Tour: Sustainability and Environment (Career Center)
Breanna Van will be serving as the undergraduate student representative at faculty meetings this year. If you have any feedback for Breanna, please contact her at: bvan@rams.colostate.edu. You can also submit your suggestions or feedback to the department suggestion box in NR 324.

Hi everyone! I’m Breanna Van, and I am going to be the Geoscience department’s undergraduate representative this year. I am currently a junior studying environmental geology. I enjoy hiking, biking, camping and pretty much anything outdoors. I am very excited to be the undergraduate representative and cannot wait to become more involved with the department. I would love to hear any feedback or thoughts you guys have that you would like me to express to the department. I look forward to hearing from you this year!

**OPPORTUNITIES**

1. **Geology and Paleoanthropology Field Courses in Tanzania** – Check out the attached flyer for information on a summer field course in Tanzania and visit: [http://geology.indiana.edu/njau/tanzania/index.html](http://geology.indiana.edu/njau/tanzania/index.html).

2. **Science Teaching Scholarships** – The University of Nebraska is recruiting students for their Masters of Arts in Science Teaching Program. Scholarships are available – see attached for info.

3. **BTWF Environmental Scholarship** - $1500 scholarship available through BTFW. Deadline to apply is Sept. 30. See attached application.

4. **AWG Lone Star Rising Career Scholarship** – Scholarship for non-traditional female Geoscience students. Deadline to apply is Oct. 31. See attached brochure.

5. **Water Resource Seminars** – Check out the attached flyer of water resource seminars – anyone is welcome to attend!

**Drop-In Advising Hours**

Do you need to meet with an advisor regarding a quick question? Come to walk-in advising in NR 322 to see Jill for a brief (10 minutes or less) meeting.

**Wednesday: 10:00am – 12:00pm**

Just Walk-in
No appointment needed.
Connect with your Faculty Mentor!

All students in the Geology major are assigned a faculty mentor after their first year or first semester in the program. Your faculty mentor is a great resource for you to use for guidance regarding career, graduate school, and Geology-specific questions. Your faculty mentor is listed under “Advisor Assignments” in RamWeb. Set up a time to meet with your faculty mentor today!
