## General Rules of the PC Labs

- 1. A Warner College of Natural Resources e-mail account is required for students to use the lab's computers. This is not the same as having an ACNS account on machines such as Lamar or Holly. If you do not know if you have an account with the College of Natural Resources, please see the lab staff for assistance.
- 2. Eating, drinking, or smoking (including smokeless tobacco) are not permitted in the lab.
- 3. No animals (with the exception of assistance dogs) are allowed in the lab.
- 4. No Bicycles are allowed in the lab.
- 5. No computer game playing -- people have work to do.
- 6. Absolutely no downloading or displaying of even remotely questionable material. This includes both graphics and text.
- 7. No foul language. A good rule here is: if you are not sure, then do not say it.
- 8. Students will not be permitted into a lab that is in use by a class.
- 9. Manuals and equipment are not to be removed from the lab. These items may only be checked out for use at a lab computer.
- 10. Students will be held responsible for any infringement of copyright laws.
- 11. Always **log out** when leaving a computer. Others can do nasty things with your account if you do not log out.
