

TA's WANTED

The Mountain Campus -- SUMMER 2020

NR 220 Natural Resources Ecology & Measurements \$2,100 per month

DATES: Session 1: May 18 – June 12
Session 2: June 15 – July 10
Section 3: July 13 – August 7

DUTIES: Assist in all aspects of course, e.g., teach, grade papers and exams, care for equipment, drive vans, set-up exercises, conduct study sessions, etc. Some days can be long; duties on some weekends.

QUALIFICATIONS: Preference given to graduate, or upper-level undergraduate, students at Colorado State University in the Warner College of Natural Resources who have completed NR 220, or know the material. Desirable qualifications include:

- knowledge of field sampling methods (forestry, fish/wildlife, range, watershed, human dimensions);
- plant/animal identification skills;
- experience with desktop computers, software (e.g., Office, GIS), and handheld devices
- experience with compasses, maps, and GPS;
- excellent written and verbal English communication skills;
- able to perform field work at elevations up to 11,500 feet above sea level;
- a valid driver's license;
- first-aid training;
- enthusiasm for teaching and learning.

We do not expect applicants to have all of these qualifications, but applicants should be able to learn faster than most undergraduates. In your application letter please comment on your qualifications for the job and identify which sessions you could work. Applicants that can work all sessions or only the first month (i.e., session 1) will be preferred. Being able to attend a few organization meetings prior to summer would be desirable as well.

SALARY & BENEFITS: Gross wages of \$2,100 for 4 weeks (i.e., a session); shared housing and meals will be provided; diverse teaching experience with enthusiastic colleagues.

TO APPLY:

- Submit (1) an application letter describing your qualifications (listed above) for the job and your availability for any combination of the sessions and (2) your resume including contact information for two references to the following address: <https://col.st/DTZCP>
- Optionally, submit one letter of recommendation from a faculty member or employer with you application to the above website or your referee can submit his/her letter directly to: <https://col.st/IX9I9>
- For full consideration, please have your application submitted **by 5:00 pm, February 16, 2020.**

PLEASE NOTE: Due to the nature of this job, you will not have time to do research, write a thesis, or commute frequently to town.

QUESTIONS?

Please contact: Dr. Paul Doherty (NR 220 Academic Director), Department of Fish, Wildlife, and Conservation Biology, Campus Delivery 1474, Fort Collins CO 80523-1474, Phone: (970) 491-6597, email: paul.doherty@colostate.edu
Also, see the NR 220 website <https://warnercnr.colostate.edu/csu-mountain-campus/>

Colorado State University is an equal opportunity/affirmative action employer and complies with all federal and Colorado laws, regulations, and executive orders regarding affirmative action requirements in all programs. The Office of Equal Opportunity and Diversity is located in 101 Student Services. To assist Colorado State University in meeting its affirmative action responsibilities, ethnic minorities, women and other protected class members are encouraged to apply and to so identify themselves.

Colorado State University is committed to providing a safe and productive learning and living community. To achieve that goal, we conduct background investigations for all final candidates being considered for employment. Background checks may include, but are not limited to, criminal history, national sex offender search and motor vehicle history.
