

WCNR Office of Diversity & Inclusion Student Interns

Ashlynn Piwowarczyk Head Intern & Internal Communication Liason

Ashlynn's responsibilities include coordinating internal office projects and connecting with student organizations to better understand student needs.

Ashlynn Piwowarczyk is a 4th year student studying Ecosystem Science and Sustainability. She serves as a Student Ambassador for the Warner Diversity and Inclusion Team. She is passionate about environmental education, sustainability, conservation, and how these elements intersect and impact communities locally and globally.

Valerie Carroll Graphic Design Intern & External Communication Liason

Valerie's responsibilities include designing content for the office and working with our office's diverse community partners on collaborative projects.

Valerie Carroll is a 4th year Human Dimensions of Natural Resources student. She is passionate about environmental education and communication, and hopes to educate others about environmental issues in her career. Valerie believes that advocating for DEIJ principles in your life and various communities is essential for building a more inclusive world.

WCNR Office of Diversity & Inclusion Student Interns

Helen Flynn
Office Of Diversity and Inclusion Intern, WCNR Ambassador

Helen's responsibilities include collaborating with student organizations, and planning internal events for the undergraduate students in the college.

Helen Flynn is a 4th year student studying Ecosystem Science and Sustainability, Conservation Biology and Watershed Science. She hopes to work with students and faculty to make Warner College and the field of natural resources a more inclusive place.

Shelby Mead
Office Of Diversity and Inclusion Intern, WCNR Ambassador

Shelby's responsibilities include assisting with the Diversity Digest Newsletter and designing informational and promotional material for the office.

Shelby Mead is a 2nd year student in Ecosystem Science and Sustainability through the Warner College. She believes that upholding the DEIJ principles in natural resources strengthens the community and the quality of work.
