

Warner College Strategic Plan Implementation Structure – DRAFT 2.0
10/31/23

The Warner College Strategic Plan, *New Heights of Impact*, is comprised of a College mission, vision, and values, and five strategic goals. The Dean will charge teams of individuals from throughout Warner College community with goal implementation as well as evaluation of progress within each goal. These teams will be responsible for doing formative and summative research around their respective goal, integrating effort and evaluating and prioritizing initiatives, proposals, and projects in order to make recommendations to College leadership. The leads of each team will comprise the College’s Strategic Plan Implementation Team.

College leadership, faculty, staff, students, and members of the Dean’s advisory council and other interested alumni will all be invited to engage. Membership will be evaluated annually with appropriate engagement to create opportunities for a variety of people in the College community to participate. The groups will work with the Dean and College leadership to prioritize and advance work that helps to fulfill each goal area and meet periodically to share updates, discuss actions, and coordinate. These efforts will be cataloged, and progress highlighted, in annual reports, released in the beginning of each academic year, from the Dean to the CSU and College Communities.

Strategic Goal & Team	Team Lead	Team Membership
A Natural Resources Land-Grant College Address society’s urgent challenges through transformative teaching, research, outreach, engagement, and service.
